

Statement of Achievement

Adult Advanced Life Support

This certifies that

Stuart McKiernan

Has achieved Adult Advanced Life Support Certification by successfully completing the ACCCN National Adult Advanced Life Support Program. This program provides 10 hours of continuing professional development.

Standards used throughout the course reflect the Australian Resuscitation Council Statements on Basic and Advanced Life Support; ANZCOR 2016 guidelines. The candidate demonstrated knowledge and practical skills in relation to Adult ALS at the time of assessment. Annual recertification and frequent review of ALS practice in line with ANZCOR guidelines is recommended.

23rd July, 2021

Date of Achievement

Alison Hodak
ACCCN National President

Rand Butcher
ACCCN CEO

Continuing Professional Development

This program includes a total of 10 hours of continuing professional development. This is based on self-directed learning through reading the program manual and completing the online pre-test, and clinical learning through attendance at the program course day. The day includes a range of didactic and interactive theoretical content presentations, and participation in scenario based simulations.

Program Content

- * Basic Life Support
- * Recognition and management of the deteriorating patient
- * Bag-valve mask ventilation and oropharyngeal airway management
- * Advanced airway management
- * Electrical therapy including manual defibrillation, cardiac monitoring, external pacing and cardioversion
- * ALS algorithm management including pharmacology, patient assessment and reversible causes
- * Communication, leadership, and team management
- * Post resuscitation care
- * Professional, ethical and legal issues

Program Assessments

- * Basic Life Support Skills Assessment
- * Advanced Airway Management Skills Assessment
- * Manual Defibrillation Skills Assessment
- * Advanced Life Support Team Leader and Algorithm Management Skills Assessment
- * Theoretical Examination Written MCQ

Reflective Practice

Please provide an outline of any reflective learning that you have gained during the program or following the program, this may be used as extra CPD hours.

E.g. extra reading of ARC resuscitation guidelines, reflection of clinical incident/resuscitation event:
