

Mr. Stuart McKiernan

# The Alert Virtual Classroom April 2022

1/11/2022 - 22/11/2022

The ALERT course provided clinical education and case studies following an ABCDE approach to acute life threatening emergencies, including sessions on:

- Primary and Secondary Survey
- Respiratory failure, tension pneumothorax, opioid overdose, drowning, and ABC interpretation
- Acute coronary syndrome, acute pulmonary oedema, pulmonary embolism and shock syndromes
- Diabetic ketoacidosis & diabetic emergencies, stroke & traumatic brain injury, pain sedation & delirium
- Envenomation, bites & stings, anaphylaxis and sepsis
- Principles of Crisis Resource Management

12 hours of CPD
